"Rummaging in the government's attic"

Description of document:	The State of Colorado list of prohibited or banned personalized license plates, procedures for screening personalized license plate applications, and rejected offensive personalized applications 2010-2012
Requested date:	2012
Released date:	05-November-2012
Posted date:	29-December-2014
Source of document:	Department of Revenue State Capitol Annex 1375 Sherman Street, Room 409 Denver, Colorado 80261
Note:	This material from state Motor Vehicle Departments contains references to language and material that some people may find offensive and may not be suitable for all ages.

The governmentattic.org web site ("the site") is noncommercial and free to the public. The site and materials made available on the site, such as this file, are for reference only. The governmentattic.org web site and its principals have made every effort to make this information as complete and as accurate as possible, however, there may be mistakes and omissions, both typographical and in content. The governmentattic.org web site and its principals shall have neither liability nor responsibility to any person or entity with respect to any loss or damage caused, or alleged to have been caused, directly or indirectly, by the information provided on the governmentattic.org web site or in this file. The public records published on the site were obtained from government agencies using proper legal channels. Each document is identified as to the source. Any concerns about the contents of the site should be directed to the agency originating the document in question. GovernmentAttic.org is not responsible for the contents of documents published on the website.

Fax (303) 866-2400

John W. Hickenlooper
Governor

Barbara J. Brohl
Executive Director

November 5, 2012

Via email

Your request for records has been referred to me for response.

You requested:

"1) A copy of the list of prohibited personalized license plates, i.e. the listing that is used as a guideline to the DMV employee who screens personalized license plate applications for offensive or objectionable words or phrases or messages.

"2) A copy of the internal instructions to DMV employees on procedures for screening personalized license plate applications for offensive or objectionable words or phrases or messages.

"3) A copy of each administrative appeal letter from A) applicants who personalized license plate was rejected, and/or from B) motorists who personalized license plates were reclaimed by the DMV following a complaint from a member of the public. You may restrict the search for this portion of the request to the time period January 1, 2010 to the present."

Find attached documents responding to requests No. 1 and 2. The Department does not maintain the records requested for No. 3. In lieu of those records, the Department is providing the notification letters sent to the applicants/motorists.

Sincerely,

Mark Couch
Legislative Liaison/Public Information Officer
Colorado Department of Revenue

Request #1 – Prohibited personalized license plates

Request #2- Internal Instruction to DMV Employees

Personalized Plates Rejection Process

1. Application received with up to six personalized plate choices.
2. Registration Clerk logs onto Personalized Plate system and enters the choices in order as requested by the applicant.
    a. For this example applicant listed three choices in the following order:
        i. BLOWME7
        ii. RUBME
        iii. FASTCAR
3. Upon data entry of the first choice "BLOWME7" it does not reject. Since it is a choice that may seem offensive the Registration Clerk checks to see if the base version of the choice "BLOWME" is on the offensive list.
    a. "BLOWME" is on the offensive list so the Registration Clerk adds "BLOWME7" to the offensive list.
    b. Registration Clerk than re-enters the applicant information and re-enters "BLOWME7" which now that it is on the offensive list the system rejects the choice as offensive and allows for the Registration Clerk to move to the next applicant choice.
4. Registration Clerk enters the second choice "RUBME" it does not reject.
5. "RUBME" is not on the offensive list and has no base for the Registration Clerk to check against.
6. Registration Clerk turns over the application to the Registration Supervisor who in turn requests that the Registrations and License Plate Program Manager reviews the questionable "RUBME" choice.
    a. Depending on work load, meeting and schedules the panel review may be completed by either of the below:
        i. Individual Panel Review:
            1. Registration Clerk is one vote. Turns over to the Registration Supervisor.
            2. Registration Supervisor is the second vote. Turns over to the Registrations and License Plate Program Manager.
            3. Registrations and License Plate Program Manager is the third vote.
        ii. Team Panel Review:
            1. The Registration Clerk, Registrations Supervisor and Registrations and License Plate Program Manager meet to discuss and vote each having one vote.
        iii. If any of the three persons listed above are not available, the application may be held until all three are available or one of the other Registration Clerks may be used. At all times at least one vote will be from the Registration Supervisor or the Registrations and License Plate Program Manager.
    b. Walk in customers may apply in person for personalized plates and are required to complete the proper forms. If the Registration Clerk questions a choice the same process is followed and the customer is given the choice to wait or is informed that they will receive either the billing or reject letter in the mail. If customer waits and the choice is rejected a reject

letter is generated at a later date and mailed. System does not allow for single reject letter printing.

c. All three vote the same or the majority of the votes determine the outcome the Registration Clerk is instructed to complete the process.
    i. All three vote or majority vote is "Not Offensive" – application is processed applicant is sent a billing letter.
    ii. All three vote or majority vote is "Offensive" – application is processed via the offensive/reject process.

d. If there is a split on the vote and the lone vote feels strongly in his/her decision the Registration and License Plate Program Manager presents the questionable choice along with the vote split to the Operations Manager. The Operations Manager either votes on the side of the majority vote or sides with the lone vote.
    i. If the Operations Manager votes on the side of the majority vote the Registration Clerk is instructed to complete the process based on that majority vote decision.
    ii. If the Operations Manager sides with the lone vote a tie is considered questionable and the choice is added to the offensive list and rejected.

e. There are times that a questionable choice may need further information. The Registrations and License Plate Program Manager may use any of the tools below to help in the panels vote:
    i. Use of internet search engines, online databases, online references.
    ii. Use of foreign language speaking employees. If a foreign language speaking employee is used that employee is not given voting rights.
    iii. Contact Correctional Industries staff to inquire of the inmate License Plate Factory staff to determine if a drug, gang or criminal activity term is being requested. Correctional Industries staff or inmate staff is not given voting rights.

f. No record of the votes are kept or retained.

7. Based on the outcome of #6 the Registration Clerk:
    a. If offensive enters "RUBME" into the offensive list and than has the system reject the choice. Than moves to the third choice "FASTCAR".
        i. By adding "RUBME" to the offensive list each application received after this will be rejected at the first data entry point by the system.
        ii. "FASTCAR" is not system rejected or questionable so no panel review is conducted and a billing letter is generated to the applicant.
    b. If not offensive enters "RUBME" having the system generate a billing letter to the customer. Third choice is not entered since the second choice is accepted.
8. Applications are filed based on accepted choice.
9. Should a personalized plate be issued and receives three written complaints the plate is recalled from the vehicle upon receipt of the third written complaint.

COLORADO DEPARTMENT OF REVENUE *Motor Vehicle Title & Registration Section* **Procedures Manual**		
TITLE: Offensive Personalized License plates		POLICY NUMBER: R-05-PL-03
ORIGINATOR/DRAFTER: Sharon Candelaria	REVIEWER: Lola Luna	APPROVER: Crystal Soderman
ORIGINAL EFFECTIVE DATE: 02-01-05	DATE LAST REVIEWED: 09-25-12	EFFECTIVE DATE THIS REVISION: 09-25-12

SCOPE: This procedure applies to offensive configurations for personalized license plates.

PURPOSE: The purpose of this procedure is to update the Offensive list on the Personalized license plate program.

BACKGROUND: Colorado Revised Statute 42-3-211(5) provides for flagging of offensive personalized plate configurations. "There shall be no duplication of registration numbers, and the department may refuse to issue any combination of letters or numbers, that carry connotations offensive to good taste and decency, are misleading or duplicate any other license plates provided for in this article."

DEFINITIONS:

POLICY: Requests for personalized license plates are checked for offensive configurations. If a clerk suspects that a configuration is offensive the application is brought to the supervisor who in turn will bring it to a three person committee to determine if the application will be rejected. If the configuration is deemed offensive the clerk will enter the configuration as offensive in the Special Plate File Maintenance file.

There are situations when a personalized plate has been issued but must be recalled.

The law states that any plate which is offensive to the general public cannot be issued, therefore, the written complaint regarding a particular configuration falls into this category. Letters of complaint are received by the Registration section from individuals who have seen a license plate with a configuration that offends them.

All written complaints regarding "offensive" plates are reviewed by a three (3) member panel. Only upon the unanimous decision of this panel will the plate be recalled for being offensive.

Determinations made by the Registration Section, regarding the status of the plate configuration will be final.

The appropriate county motor vehicle office will be notified of the recall so notations can be made on the plate holders record to prevent renewal of the recalled plate.

PROCEDURE:

From **Master Menu**
Select **(3) Registration Menu**. Press **F12**
Select **(1) Special Plate File Maintenance.** Press **F12**

At this time you will need to log on. After entering your log on information Press **F12**

From **Special Registration Activity**

1. In the **FUNCTION** field enter **A** (adding a record). The cursor will move to the **SELECT TYPE** field
2. In the **SELECT TYPE** field enter **019** (number code for BAD-PLT). The cursor will go to the **PLATE NUMBER** field.
3. In the **PLATE NUMBER** field enter the configuration deemed offensive. Press **F12** two times, a pop-up box will appear that reads:

PRESS F12 TO COMPLETE TRANS
PRESS END TO IGNORE THIS TRANS
ALL DATA ON THE SCREEN WILL BE LOST
PRESS ESCAPE TO RESTART THIS TRANS
CURRENT SCREEN WILL REMAIN UNCHANGED
Press Any Key To Return To Form

4. Press **F12**. The data will be stored and the screen will be ready for your next application with the cursor at the **FUNCTION** field.

5. A rejection letter will be printed and mailed to the applicant explaining that the configuration is deemed offensive and is not acceptable. (See Billing and Reject Letters procedure R-05-PL-04)
