7. Verify the following:
 - a. That the correct application was received, i.e. special plate application; conservation or Building Bright Futures plate application. If an incorrect application was received, a return is required.
 - b. The correct fees have been received. If incorrect fees were received, a return is required.
 - c. The appropriate spacing and amount of numbers in plate, using the following guidelines:
 1. No more than two (2) numbers are allowed in combination with letters.
 2. An "O" is considered to be the number zero ("0").
 3. Dots, dashes or other special characters cannot be used.
 4. Special plates cannot begin with the letter "Z".
 5. Where several plate types share the same vehicle type, only one such plate may be assigned a particular special plate sequence. For example, a regular truck, and S truck and a special weight permit are separate plates, but are the same vehicle type. Therefore, only one of these trucks may be assigned a special plate sequence.
 6. If a special plate is requested for a plate type that includes special characteristics within the regular plate, (i.e. WD = well driller, S = special truck) these characters **must** be included in the special plate format.
 7. If the plate number contains an "I", the same combination **cannot** be issued if the "I" is replace by a "1". For example, "EIEI0" (with the letter "I") cannot be issued with "E1E10" (with the number "1").
 8. A minimum of one (1) and a maximum of seven (7) characters are allowed, with the exceptions indicated below, however, the letters I, J, O or Z are **not** acceptable.
 9. Small case "c" is allowed on some plate types if it is not the first or last character.
 10. Asterisks indicated on the application shall represent spaces on the plate.
 11. Special number plates whether new or renewed may be issued in any combination of numbers and letters provided the total of the numbers and letters does not exceed seven (7) characters, and provided the requested combination of letters and numerals

do not duplicate or resemble a regular issue registration plate. **However**, you must **not** issue any plates which are on the "Do Not Issue" list (Attachment #2).

- a. **Effective July 2, 2004**, in addition to referencing the "Do Not Issue" list, follow the instructions indicated below to determine other plate combinations/references that should **not** be issued:

All new applications for special plates will be carefully reviewed and will be issued only when it has been established within reasonable means that the requested number of letters and/or combination of letters, numerals, characters and spaces follow the guidelines below.

- ♦ Combinations of letters or numbers that suggest, in any language, that is vulgar, derogatory, profane, racial epithets, scatological (excrement) or obscene.
 - Examples: VD, JAP, REV, GOD
- ♦ Also, not to be issued are those letters or combinations which suggest a government or a government agency, give the suggestion of a privilege not given by law in this state, or suggest the use of regulated drugs or alcohol.
 - Examples: CIA, VT, DWI, COPE, POT, DPL, FC, NYP or MD in combination with a space to indicate a title.
- ♦ Special number plates with the following combination of letters or numbers shall not be issued:
 - Combinations of letters or numbers that connote, in any language, breast, genitalia, pubic area, or buttocks or relate to sexual or eliminatory functions. Additionally, "69" formats are prohibited unless used in combination with the vehicle make, for example, "69 CHEV."
 - Combinations of letters or numbers that connote, in any language:
 - Any illicit drug, narcotic, intoxicant, or related paraphernalia;
 - The sale, the user, or the purveyor (distributor) of such substance;
 - The physiological state produced by such a substance.
 - Combinations of letters or numbers that refer, in any language, to a race, religion, color, deity (nature or condition of being a god or goddess), ethnic heritage, gender, sexual orientation, disability status, or political affiliation; provided, however, the commissioner shall not refuse a

combination of letters or numbers that is a generally accepted reference to a race or ethnic heritage (for example, IRISH).

- Combinations of letters or numbers that form, in any language, a slang term, abbreviation, phonetic spelling or mirror image of a word described above.
 - ♦ Other plates that are **not** to be issued are those which are:
 - Against Departmental policy
 - On hold per Commissioner's office
 - On hold for person with corresponding handicapped plates
- b. The "request for special plates" form must be completed.
- c. Prior to submitting an order for special plates, all requests must be reviewed by Director of Operations and the Assistant Attorney General.
- d. When a customer, at the time of renewal, has a special plate, car or permissible truck, and requests a different special plate for the coming registration period, the fee computation will be as follows:
- e. If the requested plate is available, issue a sixty (60) day temporary plate, collect the special registration fee, and process the special plate request.
1. If on a yearly system and the requested plate is available, issue a sixty (60) day temporary plate. Collect the base plate fee plus the new special plate fee.
 2. A special plate fee will not be prorated at any time. It is an annual fee and is due whether registration plates are used for a full twelve (12) months or only for a portion of the registration period.
 3. If the registrant applies for more than a twelve (12) months registration under the staggered registration law, then it would be the special plate fee for the first twelve (12) months and an additional special plate fee for any additional time thereafter, up to another 12 month period.
 4. At all times when a special (vanity) plate is requested, a temporary plate will be issued and sent to the registrant rather than the hard plate. This will also apply at the time of renewal or if the applicant already had a valid Vermont plate on the vehicle.

5. Special plates may be issued with the same combination of initials and letters as the registration plate distinguishes the different type of vehicle.
 - Example: ALYCAT on a car, ALYCAT on a truck and ALYCAT on a trailer.
 - The exceptions to the above rule are as follows:
 - Pleasure car, antique and exhibition letter and number combinations.
 - Motorcycle and moped letter and number combinations.
6. On transfers or registration which are mutually transferable (car to truck or truck to car), if there was a special plate on the vehicle transferred from, a new special plate will be issued for the new vehicle at no fee for the remainder of the registration period, using the same initials or combinations of initials and numerals, but with or without the TRK designation as the case may be.

To be issued at no fee, the new plate must be available for assignment. If different initials or combination is desired, a new fee will be required.

Re: DMV 135471
Special Name Plate Registration
VIN / HIN 1HGCE1892SA010910

Dear Commissioner:

I am very disappointed that my application for a special name plate registration in the State of Vermont was denied by the Agency of Transportation / Dept. of Motor Vehicles. I feel we have credible basis to argue this decision, as this is the registered name of a legitimate business in the State of Montana and the State of Vermont and the name is also registered federally with the U. S. Patent Office.

The product of our business just happens to be an organic pet treat made from the recycling of Brewer's Spent Grain (barley), hence the name Brewies. We feel we should not be prohibited from using our Brewies business name on a Vermont motor vehicle license plate for our advertisement in the State and beyond its borders.

I might add that the State of Montana had no issue with this and this special name plate. Brewies is presently being displayed on a business motor vehicle in that state..

Please reconsider your position on this matter, as we would really like our business name, Brewies to appear on the Vermont license plate of our business vehicle. Thank you.

Sincerely,

I Thomas C Ward requested a vanity plate with the letters "RUTIN" for the plate and was denied having the RUTIN. This was a lot of a shock to be denied. I do not find this to be sexual in any way.

Rutin could mean and does a male deer pawing the ground or rubbing his antlers on trees. The marks in the mud

Rutin is not a word ^{used} in the dictionary or found in a dictionary.

Dear Commissioner,

I am respectfully requesting a hearing regarding my denied special plate application. My choice of the special motorcycle plate "snafu2" was denied as vulgar.

I acknowledge that the military origins of the word were based on a cynical and vulgar acronym developed in the World War II era. In the 50 plus years since, however, the acronym has morphed into a commonly used word in its own right, appearing freely in both written and conversational language.

The word snafu has three distinct definitions according to the Merriam-Webster dictionary, none of which are considered vulgar:

1. Noun – a situation marked by errors or confusion.
2. Adjective – snarled or stalled in confusion.
3. Verb – to bring into a state of confusion.

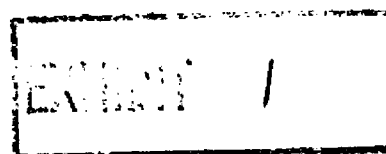

Furthermore, the reason I applied for "snafu2" was that the special plate "snafu" was already taken in Vermont. So clearly the word has been considered acceptable by the State of Vermont DMV previously. I don't understand why the rules have changed in my case.

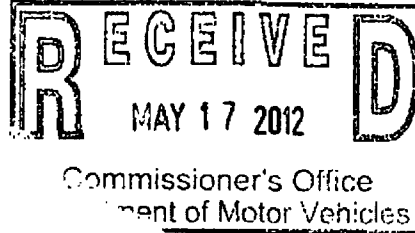

I chose to apply for this special plate to honor my father, who also had the "snafu" plate on this motorcycle when he owned it in Massachusetts. He is unable to ride the bike now due to Alzheimer's disease, and decided to gift it to me last month. That is the only reason I am pushing the issue and requesting a hearing.

Thank you in advance for considering my request for a hearing. I look forward to speaking with you further.

Sincerely,

Thank you for giving me this opportunity for the right to a hearing. I am one of a growing number of Vermont Brewers. The Vermont Brewers Association as well as the Vermont brewer's, is a great asset to Vermont's Economy. We as brewers take our craft beer seriously. We are proud of the impact we have on tourism and on our impact on the local economy.

I was saddened to have my choice of a license plate BREW rejected.

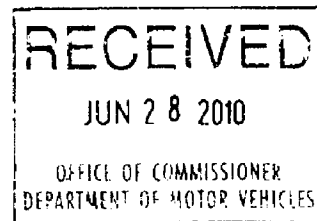

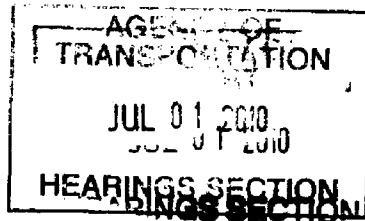

I am also saddened that I a Vermont Brewer can not proudly place this plate on my truck and know there is a Motorcycle driving around Vermont with Brew on its license plate.

I plead with you Commissioner please allow this plate selection.

Thank You

Dear Mr. Commissioner IDE,

I am requesting a formal hearing to appeal your department's denial of a recently requested vanity plate in which I requested. I feel very strongly that if your department had even taken the time to have looked at the explanation on the request form, not just the plate request I would not be taking up your valuable time and resources as well as wasting mine. Enclosed you will find the original submission form, a new request as well as documents that show what the plate's meaning is. I live in Vermont and have all my life; I am currently finishing up a 1 year contract in Tiverton, Ontario working for Bruce Power Nuclear Power Station on their restart project as a Maintenance Specialist and will renew my contract shortly for an additional year.

I am absolutely amazed Mr. Commissioner with the State running such a deficit that either one of us as well as many others within your department will be tasked to gather for a hearing on this matter. I also feel strongly enough in regard to having to leave my job and drive 12 hours each way as well as suffering additional financial loss for lost time at work that I will also be sending a copy of this correspondence to our Honorable Governor for review. As we are looking at larger and larger deficits and job loss in our State; I truly feel this is a travesty to waste the time and resources to move forward with this. I also would like to include a quote from you Sir from your Website: ***"We understand that we may be the part of state government that you are most likely to interact with. We take our customer service responsibilities very seriously and if for any reason your experience is less than satisfactory, please let me know."***

I will say this again that I am truly less than satisfied with the service from your department and I am letting you know, that being said I feel the wrong decision has been made and that is why I am willing to move forward with this. Furthermore if the Honorable Governor see's that your Department has the available as well as additional resources to pursue this with an actual hearing maybe, just maybe we as Vermonter's as well as Leaders in Vermont will see where possible Budget cuts can be made. Thanking you in advance for your Time and Consideration in this matter.

Dear Commissioner Ide:

Enclosed is my application for a vanity plate and the cover letter denying it.

I am writing you to have the denial removed. I believe the reason for denial is not only incorrect, it is weird at best, and by implication, frightening at worst.

ALQUDS is the vanity plate I applied for. As I stated on the application, ALQUDS is the Arabic word for Jerusalem. The letter and markings on the application say this vanity plate was DENIED DUE TO POLITICAL AFFILIATION.

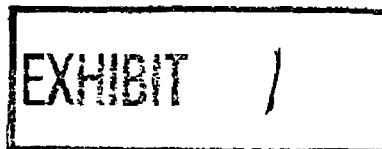

Arabic is a language spoken by millions of people in this world. It is not a political affiliation. "Jerusalem" is too many letters for a vanity plate, yet I believe that would have been allowed, not denied. Since I knew I could not have an 9-character plate that said Jerusalem, I went with the other local language in that city, which is Arabic. ALQUDS is how Jerusalem in Arabic transliterates into English script.

I lived in Jerusalem/ALQUDS for many years, and I want to honor that with my license plate. Probably no worse a reason than the reasons behind many vanity plates on the road. I hope you will honor my request. I would hate to think that any Vermont policy would say Arabic = political. That would mean we were in a whole lot of trouble, in my opinion.

Thank you very much for considering my appeal. I look forward to hearing from you and getting my license plate!

RE: Special Plate Denial – Hearing Request

Dear Commissioner Ide:

This letter serves to formally request a hearing regarding the recent denial of our special license plate application for our horse trailer. As you may recall, per your letter dated March 2, 2011, our request for the plate "MAITAI" was denied on the basis that it is a reference to alcohol.

Enclosure

To whom this may concern,

My plates were denied due to the decision of it being in a vulgar nature. I would just like to take the time to explain what it means. TRTFO was an abbreviation of a song that my mom used to sing to me when I was young. TTFOT was also abbreviated to be used at the Relay For Life Cancer walk (The Race To Fight On). This abbreviation means alot to me more so now that my mother passed away from liver cancer in 2007. I would be estatic to have these license plates in remembrance of my mother. She always said that she would get them herself and before she could she passed away. I decided I was going to do all the things my mom wanted to do but never had the chance to accomplish and this was one of her top ones. This abbreviation is not in a vulgar maner just a silly song remembrance and a cancer walk quote. I chose to appeal this to explain more about the meaning in hopes that the denied fact will be turned over and approved.

Thank you so much for your time.

Sincerely

Re: Appeal of Refusal to grant Volunteer Registration Plate

Dear Commissioner Ide:

This is an appeal from the refusal of DMV personnel to issue a Volunteer Registration Plate during registration of VDART's Companion Animal Mobile Response Trailer (CAMET).

1. Background

The Vermont Disaster Animal Response Team, Inc. found it necessary to appeal an initial denial of an exemption to the motor vehicle purchase and use tax under 32 V.S.A. Section 8911(3), which exempts from the purchase and use tax motor vehicles owned or leased by religious or charitable institutions.

On December 15, 2010 you granted the petition for exemption and we sincerely thank you for that action.

On December 30, 2010, I, as the Board Chair of VDART, Inc. went to the Springfield DMV office to register the trailer. I was told by the window personnel, in consultation with both his supervisor and their reported discussion with [REDACTED] of your office, that the issuance of the "Red" Volunteer Plate would not be possible. Apparently, I had incorrectly assumed that the eligibility for exemption from the purchase and use tax also covered that plate. The tax exemption was accepted without issue based on your letter. Incidentally, your personnel were very cordial and attempted

to resolve the matter. They indicated that it might be necessary to contact the Legislature for eligibility. However, the only available remedy was to register the trailer with a regular one year registration which I did (plate # AMR 355). The cost difference is \$31.00 per year for the regular trailer registration vs. \$10.00 for five years with the volunteer plate.

Upon returning from Springfield, I contacted [REDACTED] with whom I had prior contact over the purchase and use tax issue, for clarification. She discussed the matter with [REDACTED] of your Legal department. When she called back, she reaffirmed the denial of the Volunteer Plate on the grounds that, as opposed to the American Red Cross (that I know uses them on its trailers and vehicles) which responds to disasters along with the fire and police, and that VDART, Inc was not a response organization.

I explained that this was an incorrect assumption with the analogy that VDART, Inc. is to animals what the Red Cross is to humans vis-à-vis mass care and sheltering. If the Red Cross is called out to establish a major shelter, it is very probable that VDART will be called out to provide the animal co-shelter. (More specifically in this case: ARC Shelter Trailer with cots and blankets to VDART CAMET trailer with crates, feeding and sanitation equipment.) In fact, there is a signed MOU with the Vermont Agency of Agriculture, Food and Markets (VAAF), describing VDART, Inc.'s role during a major emergency affecting animals and their need for care under State Support Function 11 of the Vermont State Emergency Operations Plan. A copy of this MOU is attached to this letter and incorporated by reference.

Extensive supportive materials were transmitted to you previously during the appeal of the purchase and use tax issue. In support of that application, Vermont Disaster Animal Response Team, Inc. attached the following: a brief overview of the corporation, its IRS 501(c)(3) exemption letter, its Vermont sales and use tax exemption certificate, its taxpayer identification number notice, its Certificate and Articles of Incorporation, and its Bylaws.

The purpose of this letter is to appeal the refusal of DMV to issue a Volunteer Plate to VDART, Inc. for registration of its vehicles.

2. Argument/Legal Support

Title 23, Vermont Statutes Annotated

§ 376. State, municipal, fire department and rescue organization motor vehicles.

(c) The registration fee for registration of a motor truck, trailer, ambulance, or other motor vehicle, owned by a volunteer fire department or other volunteer fire fighting organization or **other organization conducting rescue operations** and used solely for fire fighting or **rescue purposes**, shall be \$10.00 in lieu of fees otherwise specified in this chapter. A motor vehicle or trailer registered under this section shall be plainly marked on both sides of the body or cab to indicate its ownership. (emphasis added)

It is the contention of VDART, Inc. that its status is that of an organization conducting rescue operations (mass care – sheltering of animals) and therefore meets the intent of this statute. (Note: This is not a request for a safety/service organization agency titled plate such as the EMS, Vermont Emergency Radio Operator and others have – there was some confusion at the DMV office.)

It is generally accepted in emergency management that an estimate of 30 to 40% of people who should seek shelters (with the Red Cross or others) will not do so because they will not leave their animals. The Red Cross can take only "service animals" into their shelters. Also, some who do go to shelters may be expected to "sneak back" into the danger zones to check on their animals. This puts both them and those who have to get them out at potential risk.

The Vermont Disaster Animal Response Team, Inc. is a tax-exempt charitable organization under 501(c)(3) of the Internal Revenue Code. It is classified as a public charity, with a charitable and educational purpose. Vermont Disaster Animal Response Team, Inc. is also a Vermont non-profit corporation and has been classified as a public benefit corporation under Vermont law. The purpose of the corporation is "to provide a coordinated effort in preparing for, preventing, responding to, and recovering from any emergencies affecting animals. The Corporation will work to increase the capability of community coordinated response to animal emergencies on local, regional, state and federal level in order to best serve the welfare of animals." It provides a broad range of public benefit to all Vermonters in times of emergency, providing the vital service of rescuing animals which serve as a food supply, working animals, pets, etc.

3. Conclusion

For all the above reasons, we ask that you reconsider the denial of issuance of a Volunteer plate and grant the appropriate eligibility status to Vermont Disaster Animal Response Team, Inc. enabling it to receive same.

Sincerely,

Chair, Board of Directors
Vermont Disaster Animal Response Team, Inc (VDART)
